The World Risk and Insurance Economics Congress (the "World Congress") held since 2005, stimulates corporate awareness and interest in risk-related research and provides a forum -- a joint conference once every five years -- for networking among academics and industry and government professionals worldwide. The World Congress is open to "all persons" who share an interest in promoting education and research in the broad areas of risk and insurance. Except for their interest in the conference, preferably in the form of presenting a paper, no criteria are established for participant qualifications.

The [American Risk and Insurance Association](#) (ARIA), the [Asia-Pacific Risk and Insurance Association](#) (APRIA), and the [European Group of Risk and Insurance Economists](#) (EGRIE), jointly organize the WRIEC.

## Why Be a Sponsor?

WRIEC offers an unparalleled opportunity to promote your organization, provide it visibility in front of the world's top risk management, insurance, economics, and finance researchers, and connect with like-minded, forward-thinking innovators from an expanded international audience that combines attendees from ARIA, APRIA and EGRIE.

ARIA is dedicated to connecting academics, scholars, and professionals in risk and insurance to learn from the past, collaborate to mitigate present risk and together, ensure a successful future for all. To do that, we support a community of globally based scholars, researchers, PhD students, and industry professionals, who come together annually at the ARIA conference to share their findings, learn from one another, and challenge themselves to advance human progress through education and more effective risk management.

### **Our extended 5-day WRIEC includes attendees from:**

- North America
- Europe
- Asia
